

# MN OSHA PARTNERSHIP

The MNOSHA Partnership was established in 2012 between ABC of MN/ND and MNOSHA. Participating contractors are expected to show dedication to reducing injuries on the jobsite and improving lines of communication between all levels of the company with regard to safety.

## Goals of the program

- **To reduce** by 3 percent annually the number of injuries, illnesses and fatalities affecting participant employers.
- **To increase** the number of construction contractors that implement effective safety and health programs and provide effective safety and health training.
- **To recognize** those contractors where managers and employees work together to develop safety and health management systems that go beyond basic compliance.
- **To promote** open lines of communication between MNOSHA and the construction industry in pursuit of safety.

## Are you interested in signing up for the Partnership?
